

John Chervinsky Photographs

John Chervinsky was born and raised in the city of Niagara Falls, NY. He is a self taught photographer and engineer. He currently works for Harvard University's Rowland Institute for Science, originally founded by Polaroid's, Edwin H. Land. His diverse scientific background is evident in his ongoing series of conceptual still-lives. He has spent 18 years running a particle accelerator at Harvard's School of Engineering and Applied Sciences, and has used accelerator technology in the analysis of art, and collaborated with Harvard's Fogg Art Museum and the Isabella Stewart Gardner Museum in Boston.

His photographic work is held in numerous public and private collections. His Experiment in Perspective series has been traveling the country since it first opened at the Griffin Museum of Photography in 2005. He resides in Somerville, MA, with his wife, Kirsten.
